

FROM SEAWEED. BACK TO NATURE

A NEW GENERATION OF 100% SEAWEED-BASED, PLASTIC-FREE MATERIALS

INZEA® introduces **100% seaweed-based** materials as a **plastic-free alternative** for packaging. They combine performance and processability with the ability to **return safely to nature** in any environment.

A solution designed to meet evolving sustainability requirements.

Designed to meet EU criteria for plastic-free materials under the Single-Use Plastics Directive.

AVAILABLE GRADES:

	% Renewable	Biodegradability	Plastic free	FILM: ISO 527-3				ISO 179/1eA	ISO 178	
				Thickness, microns	Module, MPa	Stress at Break, MPa	Strain at Break, %	Charpy notched impact strength, 23 °C, KJ/m ²	Flexural Modulus, MPa	Flexural Strength, MPa
